

## ***MUNAY-KI by Maia Elanna***

Munay-Ki rites and initiations are from the Inca people of South America. These energy activations enter the Luminous Energy Field (LEF) or Aura and result in our growth and alter the energy fields so that we can live without fear. Functioning in our own power, we can “dream” the world into being! For thousands of years, the indigenous people of the Americas have prophesied that a new type of human would appear on earth prior to 2012. Dr. Alberto Villodo PhD who studied with the Inca and Amazon Rain Forest People for 25 years as a Shaman, Healer and Sage, has been urged by these elders to bring these 9 initiations into Western Society before 2012 to facilitate us rapidly into the development of this new “Homo-Luminous Human”. This new human will understand how to work effectively and efficiently with the light body to create this metamorphosis. After we have received these 9 initiations, and as we work with these rites, they change our energy fields and assist in removal of the “sludge” from our chakras and allow them to shine forth their true and pure rainbow colors. We thus are able to become who we really are – “Children of God”.

In the past, the elders only gifted one rite per year. In June of 2006, the “Creator” or 9th rite became available for the first time ever on this planet. Alberto’s goal is to have enough people receiving and in; turn teaching these rites around the world to gain a critical mass of people who are always “Walking in the Light”! The rites assist you in your own personal healing and afford each of us tremendous spiritual assistance from a lineage of luminous beings. These energies not only heal us personally, but work on our karmic and genetic lineage to heal the wounds of the past and of our ancestors. Some have referred to these rites as the “Way to Pure Happiness”!

Many of the Elders worked with Alberto for 25 years to impart their power, love and wisdom so that we, as modern seekers, could become aware of this ancient wisdom of energy medicine that heals through Spirit and Light. The healing and transformation of these rites irrevocably changes our D.N.A. and we literally begin to age differently! These energies transform the body, heal the soul and can change the way we live and the way we die. Our Luminous Energy Field whose source is located in infinity, is a matrix that maintains the health and vibrancy of the physical body. Through the reception of these initiatory rites, the experience of infinity can heal and transform us and it also can free us of the temporal chains that have kept us fettered to illness, dis-ease, and old age. We are more than flesh and bone, we are fashioned of Spirit and Light! This energy can reverberate through every cell of our bodies. Commit to developing your Luminous Energy Field, and activate through the reception of the 9 rites of the Munay-Ki, the template of Light, that determines how our body heals and how we truly function and live in each and every moment.
